

## Anticipation Guide

Decide whether each statement is true or false and mark your answer in the column marked Before. Once the unit is finished, read each statement again. Decide whether each statement is true or false and mark your answer in the column marked After.

Before	After	Statement
True False	True False	Mark and James are comparing two numbers. They think the numbers 253 and 235 are equal because they have the same numbers.
True False	True False	A number can be decomposed in different ways.
True False	True False	Mindy is comparing the numbers 13,769 and 24,053. Mindy thinks that 13,769 is larger because the digits 7, 6 and 9 are bigger than the digits in the other number.
True False	True False	$50,000 + 6,000 + 700 + 80 + 9$ is the same as 56,789
True False	True False	 <span style="font-size: 2em; vertical-align: middle;">= 386</span>

Did any of your choices change?
